As part of the general improvement of the Cuban educational system that is carried out in our country, and especially at the higher level, it is imperative to raise the quality of access to higher education, so it provides that everyone who aspires to study in higher education in any of its types of course and for any career, will have to take three mandatory entrance exams in the disciplines Mathematics, Spanish and History of Cuba, constituting an indispensable requirement to obtain a minimum of sixty points in each examination for the applicant to be included in the scale of allocation of places according to their source of income, constituting an indispensable requirement to obtain a minimum of sixty points in each examination for the applicant to be included in the scale of allocation of places according to their source of income.

In order to provide facilities to young people with motor, visual or hearing disabilities who aspire to higher education, we consider it appropriate to establish the following procedure:

- Fill out the career application form, taking into account the ideal requirements for the performance of the profession in correspondence with their disability - Take the entrance exams and pass each of them with a minimum of sixty points (60).
- Young people coming from the pre-university source may apply for the careers offered for this education. They will obtain the degree provided that they take the statutory entrance examinations and obtain sixty (60) or more points in each of them.
- In the process of awarding these young people will compete with each other, and, if necessary, places will be created according to the capacities of the universities and after hearing the opinion of the Directorate of Admission of the Ministry of Higher Education. Those who are suspended will have a new opportunity in the next course.
- Those who meet the established requirements and are endorsed by their provincial associations: Association of the Blind, Association of the Deaf and Association of the Physically Handicapped.
- The Provincial Admission Commission will be responsible for providing special treatment in the act of examination to all applicants whose disability so requires:

1. To individualize the cases in a place of easy access and with the appropriate conditions.

2. For students who are blind, have low vision and severe motor difficulties, teachers will be assigned to transcribe the tests based on the student's own answers. In the case of the deaf or hard of hearing, communication will be established through the sign language interpreter, and they will be exempt from the Spanish dictation.

3. Students who are blind or have low vision will be exempted from the geometry question of the Mathematics exam space.

4. If the student needs more time due to the characteristics of

How Can a Student With Visual, Hearing or Motor Disabilities Continue to Study in Hi
