This natural refuge of the surviving flora of the Southern plain of Pinar del Río is located 60 km from the city. Exclusive ecosystem, where several attractions of the region are found: the White Sands footpath (in the shape of a horseshoe that allows the return to the starting point without repeating the journey on the way back), visit to the crocodile zoo acutus, and more than 105 species, highlighting the cartacuba, the tocororo, the colonies of pigeons of different species and the carpenter.
